Attention Management

Brett Lee, Founder, Internet Safe Education
A Detective Steps into the Predator's Lair Disguised as a Child

Susan McLean, Cybersafety Expert
The 3 P's – Policy, Practice & Photography

A/Prof Michael Nagel
Researcher and Author
Social Media and Mental Health

WHAT IS GENERATION NEXT?

A not-for-profit providing education and information to protect and enhance the mental health of young people. Our objective is to raise community awareness of mental illness through increasing mental health literacy, reducing associated stigma and positively influencing individual and community behaviour to improve the mental health of young people.

“ The seminar was fantastic. My brain is still buzzing! Full of ideas and options to incorporate. ”

EDUCATION POINTS

- **Teachers:** 6 CPD hours, NESA Approved at the level of Proficient Teacher
- **Nurses:** 6 CPD hours, ACN Approved
- **Social Workers:** 8 CPD hours, AASW Approved

See generationnext.com.au for more information.

Social Media and Mental Health	A/Prof Michael Nagel
Violent Video Games and Aggression	Dr Wayne Warburton

Program subject to change without notice. For the most up to date program and a list of speakers, visit www.generationnext.com.au.

KIDS IN CYBERSPACE PROGRAM

Responding to the challenges posed by a rapidly changing online environment, in 2018 we're hosting a unique event dedicated to promoting a healthy digital diet, harnessing the benefits of technology for education and supporting professionals to help young people stay safe, positive and responsible online.

- 📶 Sessions will be longer and more detailed
- 📶 The audience size will be limited to encourage a more intimate and interactive learning environment
- 📶 Speakers will be selected for their specific expertise and experience in the digital space and with cybersafety
- 📶 Delegates will receive handbooks and other learning materials for both Kids in Cyberspace and The Mental Health & Wellbeing of Young People seminars.

HOW IT WILL WORK

The event will run from 9am to 5pm on the **same day**. Those who have registered for the **Kids in Cyberspace Program** will have access to Generation Next's parallel program (The Mental Health & Wellbeing of Young People).

REGISTRATION INCLUDES

Access to two programs, lecture notes, and satchel, attendance certificate, access to resources exhibition, morning tea, lunch and afternoon tea.

WHO SHOULD ATTEND

- 📶 Principals, Assistant Principals, Year Co-ordinators, Deans, Heads of Departments
- 📶 Teachers, Educators, Counsellors, Social & Youth Workers

Attention Management

Dr Kristy Goodwin,
Digital Wellness Expert

Banning technology isn't the solution. Instead, we need to teach our kids how to manage technology in healthy and helpful ways. In this practical session Dr Kristy will equip classroom teachers and health professionals working with kids with research-based practical strategies to help kids manage their attention (without telling them they need to give up their smartphone, or stop using the iPad).

Practical Strategies to Empower Positive Digital Citizenship

Jocelyn Brewer,
Psychologist, Researcher

The impact of young people's technology use is a highly divisive topic which thrives on sensationalised headlines. Psychologist Jocelyn Brewer will guide participants through some of the nuances when it comes to understanding and interpreting the research on technology use and mental health. She will introduce a range of innovative strategies for fostering digital wellbeing and for helping young people maintain a happy, healthy relationship with their online world.

The Four 'R's of Online Safety

Greg Gebhart,
Education & Technology Expert

Young Australians need digital literacy skills and core values to help navigate the online world safely. This session will explore the four 'R's of online safety – respect, resilience, responsibility and reasoning in relation to online content, cyberbullying, explicit content, and making informed online decisions.

Violent Video Games and Aggression

Dr Wayne Warburton, Psychologist; The Children and Families Research Centre, Macquarie University

The effects of video games, and especially violent ones, has been the subject of significant debate. Recently, major institutions such as the WHO have recognised the addictive potential of computer games. Other organisations have recognised the connection between violent video games and violent behaviour. Wayne will walk us through the evidence and help us to understand the science, de-mystify the 'debate' and develop a better understanding of the various stakeholders that are driving it.

Internet Connected Toys and Play: What You Need to Know

Dr Kate Highfield,
Researcher and Educator

Children's toys are increasingly becoming 'high tech', with traditional toys replaced with 'tech toys' that integrate technology and respond to children in some way. Kate will discuss the research and implications surrounding internet connected toys, and beyond the hype consider potential benefits, concerns and opportunities for learning.

The 3 P's – Policy, Practice & Photography

Susan McLean, Cybersafety Expert

Organisations working with young people need to have a robust Cybersafety Policy in place which covers a broad range of potential issues including photography. Understanding relevant legislation and its application is vital in ensuring that duty of care obligations are met. In this session, Susan will highlight what to include in a policy and issues of concern around the photography of students, patients or clients. A sample policy and photography permission form will also be provided.

A Detective Steps into the Predator's Lair Disguised as a Child

Brett Lee, Founder, Internet Safe Education, Previous Police Officer

An online child sex offender goes through 5 steps to commit an offence against a child. This presentation will address methodology as it relates to these steps and the roles carers, educators and other professionals can play to disrupt the grooming process at any stage. As a former undercover internet detective Brett Lee communicated online with child predators under the guise of a child for thousands of hours. From initial contact, information sharing, the creation and abuse of trust and resulting arrest and trial, this presentation is a journey through the online world as children see it.

Social Media and Mental Health

A/Prof Michael Nagel, Researcher and Author, University of Sunshine Coast

In 1997 the first recognisable social media site, 'Six Degrees' was created, but the widespread global use of social media arguably exploded between 2004 and 2007 when YouTube and Facebook changed the face of the Internet and how people connect. A little over a decade later we are beginning to see the toxic impact of social media on the mental health and development of young people. This presentation looks at the downside of social media on young people and what can, and should, be done to nurture healthy minds.
